

Workshop Biorefinery

Austrian Activities and IEA Bioenergy Task 42

4. Oktober 2007, 14:00 - 18:00
Hotel Regina, Rooseveltplatz 15, A-1090 Vienna

Draft Agenda

Moderation: Ingo Marini (Technical University of Vienna, Austria)

14:00 Welcome (Hans-Günther Schwarz, BMVIT, Austria)

14:15 IEA Task 42 Biorefinery, Ed de Jong, IEA Task 42 Leader, The Netherlands

14:45 Austrian Biorefinery Highlights

- Pilot plant green biorefinery in Upper Austria, Horst Steinmüller, Energieinstitut der Johannes Kepler Universität Linz, Austria
- Separation of chemicals as co-products in pulp and fibre processing, Hedda Weber, Lenzing AG, Austria

15:30 – 16:00 Break

16:00 – 16:45: Austrian Activities on Biorefinery Part I

- Environmental evaluation of biorefinery concepts, Gerfried Jungmeier, Joanneum Research, Austria
- Green biorefinery research in Austria - An overview, Michael Mandl, Joanneum Research, Austria
- Possible role of gasification in biorefineries, Hermann Hofbauer, Technical University of Vienna, Austria

16:45 – 17:00 Austrian Activities on Biorefinery Part II

- Biorefinery concepts for the production of ethanol, Anton Friedl, Technical University of Vienna, Austria
- Biogas as a key technology within biofuels oriented biorefinery concepts, T. Amon, University of Natural Resources and Applied Life Sciences, Austria
- N.N

17:00 – 18:00 discussion and questions for Task 42

18:00 closure of workshop
